RUSSIANS WANT
PEACE AGAIN ON
WILSON'S TERMSNew Demands of Slavs Do
Not Include Indemnity
Or AnnexationOFFICIAL SAYS ARMY
IS NOW FIRMLY UNITEDMunitions Plants Turning
Out Increased Supplies
For Soldiers

[ASSOCIATED PRESS TELEGRAM]

Petrograd, via London, April 28.—Minister of Justice Kerensky gave to a representative of the Associated Press today a clear presentation of the present status of political and economic affairs in the country, and, with the aid of concrete facts, contradicted the assertions and rumors of alarming disorganization in the army and factories, generally circulated and credited in Petrograd in the last few weeks. The minister declared that not only is the army better prepared and more willing to fight than before the revolution but that the factories are putting out more ammunition than at any previous stage of the war. He continued:

"Most of the weaknesses attributed to the present government are the accumulated deficiencies of the old regime, whose burdens we have to bear. All these weaknesses were studiously concealed by the old government and little was said about them. In the new era of democratic freedom these faults are frankly acknowledged but they are the fruit of the inefficiency of the past. You hear stories of the tremendous number of deserters from the front as if desertions were a new and unheard of crime in Russia. Yet, before the revolution more than 1,000,000 cases of desertion were reported every year. Compare that with the present facts. Just after the revolution a number of soldiers did leave their positions and return home, but desertion now has ceased and telegrams have been received from all points in Russia that large bodies of deserters are asking permission to return to the front and protect the country against the possibility of a German advance."

Minister Kerensky said that despite all assertions to the contrary, the factories were putting out more ammunition than before the revolution.

"Under the old regime," he said, "the output diminished month by month but it is now steadily increasing. The spirit among the working men is excellent."

Regarding peace the minister said: "Russia wants peace on the terms proposed by President Wilson. The revolution and the entrance of the United States into the war have somewhat changed the objects for which we are fighting. We want peace restored without annexation or indemnity and favor a conference with the allies to determine how this can be attained."

BRITISH AIR HERO IS
PRISONER IN GERMANY

[ASSOCIATED PRESS TELEGRAM]

Paris, April 28.—The Matin says that news has been received at British headquarters that Lieut. William Lee Robinson, the aviator who dropped a Zeppelin, is not dead but a prisoner in Germany. Lieutenant Robinson's gasoline ran out and he was obliged to land within the German lines.

A German official statement received in London on April 13 said that Lieutenant Robinson's machine was shot down on April 5 by a German battle airplane. Lieutenant Robinson won the Victoria Cross by bringing down a Zeppelin during a raid on London last fall. It was the first feat of the kind to be performed in the war.

URGE BIG CHANGE
IN BRITISH NAVY
TO FIGHT U-BOAT

[ASSOCIATED PRESS TELEGRAM]

London, April 28.—Carlton W. Bellairs has given notice that he will make a motion in the House of Commons calling upon the cabinet to adopt for the navy the practice followed by the war office of having a separate staff for conduct of the war, free from administrative work. The government also will be asked to extend the policy of placing command of fleet squadrons, patrol areas and naval bases in the hands of selected officers in the prime of life. Mr. Bellairs believes that by these means more effective action might be taken to meet the submarine peril.

GEN. FUNSTON'S MOTHER DEAD.
Emporia, Kan., April 28.—Mrs. E. H. Funston, mother of the late Major General Frederick Funston, died at the home of her daughter here yesterday. She was 72 years old.

20,780 PRISONERS AND 700
GUNS TAKEN IN 10 DAYS.

[Associated Press Telegram]
Paris, April 28.—(Noon)—Heavy artillery fighting occurred last night between St. Quentin and the Oise and in the Champagne, the war office reports. Since April 16 the French have captured 175 cannon of all calibers, 412 machine guns and 119 trench mortars. The number of prisoners has reached 20,780.

ALIENS ANXIOUS
TO FIGHT UNDER
AMERICAN FLAG

[ASSOCIATED PRESS TELEGRAM]

Washington, April 28.—America's unutilized alien population is likely to supply large numbers of soldiers for foreign legions in the war with Germany, reports reaching the war department indicate, if Congress passes pending legislation to permit allied nations to recruit their nationals in this country.

Adjutant General McCain said today he had received many letters from aliens begging opportunity to be of service to the United States in the war. Some are reservists of their own nations, and a large proportion have had previous military training. The government has been unable to deal officially with these offers, as unutilized foreigners can not be admitted to the United States army, nor have officials been able to sanction the subrosa organization of alien residents who hope eventually to form military units and go to European battle fronts under their own colors. The bill under consideration by Congress is expected to open the way for recruiting and training of these men.

The adjutant general has been notified by prominent French citizens in the United States that a quiet campaign of unofficial recruiting had been carried on already among Alsatian Frenchmen living in this country, and that 30,000 had pledged their services.

Leaders of Russian citizens in the United States have told the adjutant general they will be able to enlist large numbers of their countrymen. Italians and Rumanians sent similar word.

Armenians and Syrians have taken up with the department the question of how they might quietly enroll members for a military unit to fight Germany. Their case presents a difficult problem inasmuch as they are subjects of Turkey, with which the United States is not at war. Not being American citizens they could not fight under the American flag, and for them to go to battle front under a Turkish flag would cause the old situation of subjects of Germany's ally acting on the enemy side. Many of them are said to want to fight Turkey in retaliation for Turkey's abuse of Armenians and Syrians in their own country, and believe they can accomplish something to the same effect by striking at Turkey indirectly through her German ally.

MINISTER TO BRAZIL WAS
IN DANGER OF OWN U-BOATS

[ASSOCIATED PRESS TELEGRAM]

Rio Janeiro, April 28.—Adolf Pauli, German minister to Brazil, left Rio Janeiro last night with his staff for Uruguay. The Dutch minister took over the charge of German interests in Brazil.

The Brazilian government had offered to send Herr Pauli to a neutral port on board a Brazilian Lloyd liner. The British and French authorities refused, however, to issue safe conduct unless the ship sailed for a Scandinavian port and put into an allied harbor for examination.

The German government, however, declared that it was impossible to warn all its naval units in time to assure a safe voyage through the danger zones. It was concurrently decided that Herr Pauli should go to Uruguay.

AMERICANS MUST LEAVE
AUSTRIA BEFORE MAY 7

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, April 28, via London.—A Vienna dispatch says that all Americans, without distinction of sex or age who desire to leave the monarchy may travel to Switzerland up to four weeks from the date of the rupture of relations, April 9. After that date no Americans will be allowed to leave but those remaining will not be interned unless they commit offenses.

U-BOAT CAPTAIN DEAD.

[ASSOCIATED PRESS TELEGRAM]

Copenhagen, via London, April 28.—Lieutenant Commander Petz, one of the most successful of the German submarine commanders, has perished in the submarine campaign. The newspapers of his home town, Koenigsberg, carry an official death notice. Commander Petz was in charge of a submarine which destroyed 32,000 tons of shipping in one day in February.

GOV. COX IN CLEVELAND.

[ASSOCIATED PRESS TELEGRAM]

Cleveland, April 28.—Governor James M. Cox arrived here today to launch his food conservation campaign in northern Ohio. The governor spoke to members of the City Club this afternoon in regard to the part Ohio will play in the nation's work of saving food.

GEN. HAIG HITS
TELLING BLOWS
AT GERMAN LINERenews Effort to Turn
Northern End of Hindenburg DefenseLENS, GREAT COAL CENTER,
IS SERIOUSLY THREATENEDFrench Give Teutons No
Rest In St. Quentin and
Champagne Sectors

[ASSOCIATED PRESS TELEGRAM]

New York, April 28.—Another smashing drive by the British on the French front was begun today. General Haig reports an advance on an extended front north of the Scarpe. The attack already has scored good progress, and is continuing. Heavy fighting has developed, the Germans throwing fresh divisions into the fray.

The field of the new push lies with the ten mile front from the Scarpe to the coal city of Lens which the British have had under their guns on three sides for nearly two weeks.

General Haig already had pushed a deep wedge into the German line three miles north of the Scarpe, at Gavrelle, and was fighting today to enlarge this opening. Every yard he gains there is making the German front between that point and Lens more difficult to hold.

A considerable part of the force of the present heavy attack seems to be aimed at this part of the line. At two points along this stretch the British are reported to have advanced more than a mile, as far as Arleux and Oppy but definite possession of these villages apparently was a question for the furious fight of the day to settle.

While the British apparently are thus giving the Germans more than they can successfully cope with in the northern sector of the great battle field, the French are keeping up a heavy artillery fire south from St. Quentin all around the curve in the line into the Champagne.

The French seemingly have completed the count of the prisoners and booty taken in the recent fighting on the fronts. They captured 175 cannon of all calibers, 412 machine guns and 119 trench guns. The prisoners total 20,780.

The terrific German counter attacks on the British lines in France in which lives have been poured out like water have ended and the British troops are once more advancing. Their progress, however, is slow, and limited, and no tremendous offensive such as marked the opening of the battle, has been started. In fact, a comparatively lull exists in the gigantic struggle, a pause which may be said to mark the ending of the second phase of the world's greatest battle.

There are many signs that the fighting will shortly be resumed on a more terrific scale than ever before and not least of these omens are the frantic appeals and threats being made by the German leaders and press to avert the menace of a general strike throughout Germany. All the far-reaching power of the German censorship is unable to suppress the fact that the gravest discontent is seething in the ranks of the German workers and that the government is haunted by the fear that May Day, the great international Socialist holiday, may see an outbreak which will shake the whole imperial fabric.

That the general strike planned by the Socialist radicals is not confined to Germany but includes Austria-Hungary as well is indicated by one of the rare dispatches which have come through from Vienna. The Arbeiter Zeitung, organ of the Austrian Socialists, accepts it as granted that a strike will occur throughout the dual monarchy on May 1 and urges the workers to limit the demonstration to that day and return to work on May 2.

The situation in Germany appears to be that the empire is divided into three great factions with the feeling between the three growing rapidly in bitterness. First comes the government, second the industrialists, and third the workers.

On his arrival today Mr. Roosevelt was given a reception reminiscent of the days when he was president.

In his luncheon speech, Mr. Roosevelt said:

"The world is facing a shortage of food, soon we in this country shall face a shortage of food. Therefore let us use all the grain we have for food and not for intoxicants. Now that the war is on, let us forbid any grain or corn being used in the manufacture of intoxicating liquors. Let the government help the farmer by monopolizing labor. If necessary, and tell our young men that it is a case of farm and arm."

"I appeal primarily for the in-

stant meeting by this nation of the three great military needs of the situation."

Mr. Roosevelt immediately instituted not only for this war but for a permanent national policy, the system of universal, obligatory military training and service for all our young men.

"We should at the earliest moment strike hard and aggressively at Germany and this can be done only by sending abroad at the earliest moment an expeditionary force. At least a division should be put in France within the next few weeks and then put on the firing line as quickly as the allied generals say it is ready; and its numbers kept filled. As rapidly as other divisions can be gotten ready, they should be sent over, besides it, until without an hour's unnecessary delay we accumulate at the front a formidable fighting army, trained in actual service conditions, and therefore so far as possible, receiving its intensive training near the fighting line."

"To proceed at once to do everything for the upbuilding of the navy, capital ships, submarines, auxiliaries, cargo ships, everything."

"I favor universal service so emphatic that I wish to include myself and the men who are so anxious to come in the division I desire to help raise. If we are denied this chance, most of us will be denied the chance of all service, under the supposed obligatory system, in two years and a half ago when this war broke out, we had no more to say than that our blindness prevented the principle of universal, obligatory service, we would have had an ample force of trained men."

WHEN M'ADOO MADE \$200,000,000 AVAILABLE TO BRITAIN

Left to right: Lord Cunliffe, governor of the Bank of England; Sir Cecil Spring-Rice, Secretary McAdoo, Sir Richard Crawford and Assistant Secretary of the Treasury Crosby.

Secretary McAdoo is shown here signing the treasury warrant which gave to Great Britain \$200,000,000. America's first war loan to the allies. The warrant was signed in the presence of Lord Cunliffe, governor of the Bank of England, and the other British financiers who accompanied the Balfour mission to the United States. The receipt for the loan was signed by Sir Cecil Spring-Rice, as the official representative of Great Britain in this country.

CHAS. C. STARRETT ORDERED TO FORT HARRISON MAY 8

Charles C. Starrett, son of Mr. and Mrs. George L. Starrett of West Church street, who has been studying law at Cleveland, is in town today, having just successfully passed the examination at Columbus for admission to the military training camp at Fort Benj. Harrison, Indianapolis. He has been ordered to report there on May 8th at the same time Charles W. Montgomery, Newark attorney, is ordered to report for military training.

Mr. Starrett expects to go to Culver military school next week and remain there until time to go on to Indianapolis. He graduated from Culver in 1912, having had over two years of military training there. He graduated from Denison university in 1916 and during the past year has been studying law in Cleveland.

JUNIOR CLASS PLAY WELL PRESENTED CROWD PLEASSED

"The Man From Home" a drama was presented by the members of the junior class of the Newark High school at the High school auditorium on Friday evening, and proved one of the most entertaining productions to be given by these schools.

The play itself is very much worth while and it was well handled by the class members. Several members of the cast enacted their roles with a professional ease, and while the lines were lost at times, it did not mar the pleasure of the production. Especially clever were Miss Cornelia Ellis and Joel Jones as Daniel Granger-Simpson and Lady Crech. Charles Wilson as the hero Daniel Voorhees Pike, proved himself an actor with real ability, and his presentation of the role was exceptionally good as was the role of Hon. St. Aubyn, the mollified English son by James Miller.

The supporting company was very clever and the play showed the result of careful training and work on the part of the members.

During the intermission the high school orchestra furnished the musical program.

The personnel of the cast follows: Mariano, proprietor of hotel, Isadore Rothstein; Michele, a waiter, Wayne Norris; Ribiere, secretary to Grand Duke, John Walker; The Earl of Havercastle, Wilson Rosebrough; Comtesse de Champagne, Pearl Calabagh; Ethel Granger-Simpson, Cornelia Ellis; Hon. Almeric St. Aubyn, son of Lord Havercastle, James Miller; Horace Granger-Simpson, Donald Power; Lady Crech, Joel Jones; Valet to Grand Duke, Vernon Cullison; Grand Duke Vost Vasilvitch, Saul Schonberg; Daniel Voorhees Pike, Charles Wilson; Ivanoff Wendell Postle; Two Soldiers, Geo. Warner; Glenn Berry, Musicians; Fisherman, Flower-girls. Members of Class 1918. Prompter, Rachael McLaughlin.

THE WEATHER Forecast For Week Beginning April 29. (Issued by U. S. Weather Bureau)

(Associated Press Telegrams)
Washington, April 28.—Weather predictions for the week beginning Sunday, April 29, issued by the weather bureau today include:

Ohio valley—Unsettled, cool and showery first half of the week will probably be followed by fair and warmer after Wednesday.

Region of Great Lakes Unsettled and cold, probably rains the first half of the week, followed by generally fair and warmer after Wednesday.

25 Years Ago

(From Advocate, April 28, 1892.)
Nathan S. McDaniels died last night at his home on North Elm street.

Arbor Day will be appropriately observed at the Children's Home, tomorrow, when a number of trees will be planted.

In connection with Arbor Day a movement was inaugurated to plant trees upon Sugar Loaf Hill at Granville.

Mr. Will G. Larimore of Union Station was in the city today. He will leave for Pueblo, Col., tomorrow, where he will permanently locate.

Supt. John Hughes and wife, of the county infirmary, were in the city today.

John F. Bierly, a former Newark tailor, of Cincinnati, has opened a fine room over Bruner and Hamill's.

15 YEARS AGO TODAY

(From Advocate, April 28, 1902.)
Martha, the little daughter of Attorney W. D. Fulton had several fingers mashed Saturday, when a door blow shut on her hand.

The Black Patti Troubadours, the popular colored show will appear at the Auditorium tonight.

The Merchants' Premium Stamp Company, on South Third street held its opening Saturday.

The Sunshine circle of The King's Daughters will give a musicale at the First M. E. church, Thursday.

The birthday anniversary of Mr. John Taylor of Western avenue was celebrated on Sunday with a big family dinner.

Thomas Hindle of Peru, Ind., has accepted a position in McNamara's machine shops.

One of the social events of the past week was the closing dance and banquet given by the Adonis Dancing club.

During the thunder storm this morning lightning struck the residence of Mr. J. E. Holler, in the Cherry Valley.

The World War a Year Ago Today—April 28.

Third Russian detachment of troops landed in France.

British and Indian troops at Kut-el-Amara surrendered to Turkish forces upon the exhaustion of their food supplies; 9,000 soldiers remained of the force estimated at 30,000 under General Townshend.

which had withstood siege nearly five months, with a relief force halted less than twenty miles away.

Two Years Ago Today.

Allies had an entrenched line across the Gallipoli peninsula.

GEN. HAIG HITS SMASHING BLOWS AT GERMAN LINE

(Continued From Page 1)

the old Junker class, which still talks of a victorious war ending in annexations and indemnities, second is the Socialist majority, which is exerting all its influence to force the government into a declaration that it desires neither the money nor the land of Germany's foes; the third party is headed by the Radical Socialists and includes an unknown but apparently considerable body of the workers, sick of the war, disheartened by the diminishing food rations and demanding that peace be obtained at once, whatever the cost. The only points in common between the three parties seems to be to make Chancellor von Bethmann-Hollweg the target of all their shafts.

The majority Socialists appear to have the inner track at present. An incident of possible significance has occurred in connection with the visit of Talaat Bey, the Turkish Vizier to Berlin. After conferences with the chancellor and Foreign Secretary Zimmermann, the Turkish premier is quoted in a Berlin dispatch as saying that Turkey was ready to make peace and desired no annexation.

After days of disconcerting and dubious reports from Russia, more reassuring information has been received in regard to conditions there. A general scrapping of generals on the fighting lines has taken place and Minister of Justice Kernsky declares that the army is in better shape than ever before and resolved to continue the war.

A soldier should always use his head if he would get there with both feet.

A woman never looks better than her Hair

Thousands of women owe their youthful appearance to NEWBRO'S HERPICIDE. No matter what may be her age, a woman with a nice head of hair, hair that is soft, glossy and fluffy, always looks younger than the rest.

HERPICIDE makes the hair beautiful with that sheen and shimmer which is so attractive and always indicates a healthy, natural growth. It keeps the scalp free from dandruff and the hair from falling out. There are remedies said to be "just as good," but HERPICIDE is the genuine original dandruff germ destroyer.

Newbro's Herpicide is 50c and \$1.00 sizes is sold at all drug stores and toilet goods counters. Guaranteed by The Herpicide Co.

Recommended and applications made by the best barbers and hair dressers.

FIND FARMER DEAD IN BED AT HOME NEAR GRANVILLE

William Martin Hall, 79 years old, for years a well known farmer in the Granville vicinity, was found dead in bed this morning by his granddaughter, Mrs. Naude E. Hobbs, with whom he made his home. Death was due to natural causes.

The body was found about 6 o'clock when Mrs. Hobbs went to the aged man's room to call him.

The body was brought to Newark by Thomas A. Bazler, West Church street funeral director, and prepared for burial. Arrangements for the funeral will be announced later.

Mr. Hall was born in this county April 21, 1838. He is survived by three sons Dennis M. Hall of Pine street, thus city; Alvin A. Hall of Homer and Oren D. Hall of Granville, one brother, David E. Hall of St. Louis, Mo., 24 grand children and two great grandchildren.

SCHOOL CHILDREN WILL MARK THEIR GARDENS WITH AMERICAN FLAGS

The following letter from Supt. Wilson Hawkins, addressed to the principals of the various city school buildings, has been brought to the attention of all school children in Newark.

We want every boy and girl in the Newark schools to have a garden either at home or on a school plot. Already several hundred children have started a garden under the direction of Mr. Hopp. There are at least three thousand five hundred other children who are not enrolled in Mr. Hopp's classes. We want every one of these to have a little garden at home if it consists only of one bed. Our plan is that children that do not have a garden under Mr. Hopp ask their father and mother to plan for them, if they are too young to plan it for themselves, at least one bed for the child to work and care for.

This bed may be a part of the garden already planted by the parents but we want the child to be responsible for it in order to learn something about garden work. We want every child who has such a garden at home whether they are enrolled in Mr. Hopp's class or not to mark his garden by erecting a small flag pole eight or ten feet high and attaching to this pole on all clear days, a flag so that I can see this flag from the street when going about the city. This will indicate the number of boys and girls who have home gardens and will be a sign that they are patriotic and willing to do something for their country, even though not old enough to be a soldier.

We do not want a single flag to be put up unless the boy or girl is really caring for a small garden of his own. Within the next week or ten days, I expect to make a tour all over the city looking for flags marking the gardens that boys and girls are caring for. I was in a building this morning and presented this matter to the children and practically every pupil agreed to have such a garden. These flags may be very small and inexpensive, just large enough to be seen from the street. Please report on next Friday how many children in your building have planted a garden or have secured beds in their parents' garden to care for and have marked it by erecting a small flag. It would be fine if every child having a plot on a school garden would erect a small flag there too. The flag shows that they are having a garden because they are patriotic children and the flag will be respected by those who might otherwise commit vandalism in some of these gardens. Let our slogan be "A garden, large or small, by every child in every school." I believe each teacher can present this matter to the children in such a way as to make it appeal to every child. I will give a flag, five by eight feet, to the school building reporting the largest percentage of children enrolled, having gardens marked by these flags on next Friday.

WILSON HAWKINS,
Supt. of Schools.

APPEAL IS MADE TO AID STARVING JEWS

An appeal comes from Henry Morgenthau to the Jews of this country for aid for the Jews in the eastern countries. The appeal, of which the following is a part, comes to the peoples of all nationalities to give aid to the suffering ones. He says: I wish to sound for you the most terrible cry, the most urgent call for aid that Jewish ears heard in three thousand years!

I wish to have you hear the final call before death of a whole Jewish people—About To Die!

I wish to ask you to look with me at a scene of absolute misery and starvation that Jewish Mariydom in all its history has never equalled. I wish to ask you to look with me upon a whole Jewish people—About To Die!

Today in Poland, in Galicia, in Lithuania, in Russia, in Palestine and Turkey, whole families are driven back and forth and back again by invading armies, are homeless, and dying from hunger and exposure. Old men are dying, mothers are wandering homeless with babies in their arms, thousands, yes thousands of little suffering children, whose feet and arms and little faces are yellow—no, not from disease, but Oh! God! from awful hunger. Their parents know that only three little meals, three little meals such as your children eat, would reduce the swelling and take away this awful baby suffering, and helpless and hopeless, these mothers and fathers stand and watch the tragedy, looking to God

Light Six \$985

Back of this season's new Overland Big Fours and Light Sixes are a direct line of nine preceding models from which they were developed.

They directly continue the line of models that made the Overland name stand in the public mind for integrity of value.

Overland policy has steadfastly sustained that integrity of value in the car throughout its entire service in the hands of owners.

Over three hundred thousand of these cars are now in use and the helpful suggestions of their owners and of the more than four thousand dealer and factory-branch organizations that sold and served them, are largely responsible for the balanced greatness of this season's Big Fours and Light Sixes.

Their new beauty, their perfected easy riding qualities, their proven sturdiness and mechanical excellence, their admitted tire, fuel and oil economy make them worthy of the confidence we enjoy, that they will still further enhance Overland prestige.

They embody the wisdom of the unmatched Overland experience in building cars of this type.

They are dominant values, cars of proven dependability and sterling worth.

As long as we have them for delivery before May 1st, the prices are \$850 for the Big Four, \$985 for the Light Six—thereafter \$895 and \$1025.

Prices Effective April 1st, 1917

Light Fours	
Touring	\$805
Roadster	\$850
Limousine	\$995

Big Fours	
Touring	\$850
Roadster	\$905
Coupe	\$1,250

RINGLING BROS. CIRCUS IN ZANESVILLE MAY 9TH

Announcement is made that on Wednesday, May 9, Ringling Bros. circus will give afternoon and night performances at Zanesville.

The famous showmen are this season presenting an all new and wonderful program. The tremendous fairland spectacle, "Cinderella," will appeal to both young and old. More than 1000 persons take part in it. It is easily the biggest spectacle Ringling Bros. have ever staged and its glorious "Ballet of the Fairies," with 300 dancing girls, is in itself worth going many miles to see. Following "Cinderella" 400 arenic artists appear in the main tent program. The Ringlings have secured scores of circus performers never before seen in America. An entire trained animal show has been made a part of the main tent program this season. The menagerie now numbers 1909 wild animals. The elephants, including "Big Bingo," the earth's largest pachyderm, have been increased to 41 and almost 800 horses are carried. There will be 60 clowns and a big free three-mile street parade show day morning.

Muggins—"I feel like falling down and worshipping that girl." Buggins—"Wait a while and it won't be necessary to fall down. She'll probably throw you down herself."

Henry Morgenthau, Chairman, Campaign Committee. Anyone wishing to contribute to this cause can call at the Great Western Clothing Store and give their money to L. Hirschberg who will forward it to headquarters. The local committee consists of Mr. Hirschberg, chairman, Daniel Altshool and A. Schiff.

The Strap-Hanger.
"The street cars haven't been as crowded lately as usual."
"That so."
"Oh, yes. Why, coming to the office this morning I had only two persons on each seat!"—Minneapolis Tribune.

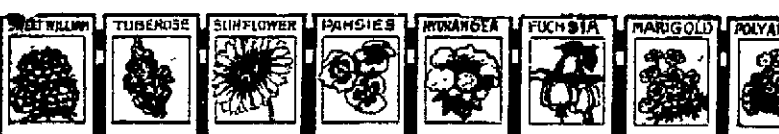

It's all right to be good to yourself, but many a man has been killed with kindness.

YOU Have Liver Trouble

SCHENCK'S MANDRAKE PILLS

correct all tendency to liver trouble, relieve the most advanced cases, and restore the tone of the whole system—more than 79 years the specific for liver and stomach disorders—wholly vegetable, they are mild and gentle in action—and because they follow nature's methods, they are agreeable to the most delicate.

Y. M. C. A. Notes

The International Committee of the Young Men's Christian Association is making plans to meet the demands brought upon it by the organization of the new army of young men. Dr. John R. Mott, the general secretary of the organization, will be in Cleveland next Wednesday, May 2, where representative men from over the state will meet him at a dinner at the Statler Hotel to undertake. Newark has been asked to send five representatives to this gathering. Shall Newark rise to this opportunity for service? Columbus expects to have a special car for their delegation.

A baseball team made up of members of the Junior class went to Utica last Saturday and played a similar team there. The Utica boys took the local boys over by a score of 5 to 2. They play the return game here next Saturday.

The tennis courts are being put into condition and if the weather is favorable they will be in condition for playing next week. All those holding membership cards will be entitled to the use of these courts. There are certain rules that should be observed in order that they may be accommodated the greatest number without confusion. These rules are on file at the Y. M. C. A. office and should be consulted by those who use the courts.

While the Bromley meetings are in progress the Association secretaries urge that the members attend as much as possible. The addresses by Dr. Brunley will be most helpful to any young man.

EXPRESSION OF THANKS.
The A. F. F. W. committee wish to thank the lessee, Mr. Robert A. White and the manager Mr. George Feunberg for the use, free of expense of the Auditorium for the presentation of the war pictures Thursday evening April 26th. The pictures showed the work of the American Ambulance Corps in France. One hundred and twenty-three dollars was realized from the entertainment.

HUNDRED MILE AUTO RACE.
Columbus, April 28.—Four cornered will be the hundred mile auto race in Columbus on Sunday, May 13. Bill Endicot, George Clark and Ben Giroux will appear as challengers of Fred Horey, world's champion driver over dirt tracks.

At Eureka, Cal., a millionaire plant grower is proving that bulbs and plants heretofore imported from Holland, Belgium and Japan are inferior to those grown in California.

Lodges

I. O. O. F.
Newark Lodge, 623.
Monday evening Newark lodge conferred the initiatory degree. There was a good attendance. Next Monday the first degree will be conferred. All members of the team will take notice Encampment No. 12.

At the last session of Mt. Olive the patriarch degree was conferred on seven candidates. Following the work an excellent lunch was served. All patriarchs are urged to be present Thursday evening, May 3 when the Golden Rule degree will be conferred in full form.

MODERN WOODMEN.
Cedar Camp No. 4727 M. W. of A., met Wednesday night and held only a short business session on account of the fact that National Lecturer John F. Harris of Chicago, Ill., was here to make a fraternal talk. The attendance was small but those that heard him were much pleased. At the short session held Wednesday night the invitation to attend the Bromley tabernacle meeting on May 9th was accepted and on that night the members will meet at the hall and march to the tabernacle in the city, whether they are members of Cedar Camp or not, are invited to meet at the hall and go to the tabernacle. Also the Royal Neighbors of America are cordially invited to attend the services with us and they also are requested to meet at the Woodman Hall and march to the tabernacle in a body.

K. O. F.
Newark Lodge, No. 13, K. of P., met in regular session Thursday night. Business was light as well as attendance. Eight applications were voted upon and elected to receive the degrees of the lodge. Two pages in waiting were initiated into the Esquire rank.

It was voted to send each member a special invitation to join the delegation of Knights who will attend the Bromley tabernacle services next Wednesday night.

The Endowment rank or Insurance department of the order has sent notice that any member entering the services of his country in any capacity will be assured of his insurance remaining in full force for its face value. Next Thursday night the Knight rank will be conferred.

Roland Lodge.

A fine class of ten Esquires was given the Knight rank this week by Roland lodge. The attendance was not very large, but everybody seemed to enjoy the evening. The team was composed of members from both the "old" and "new" teams and did good work. There will be no degree work next meeting night, but the booster boys have a little program which they may put on if the crowd justifies it. On Wednesday evening members of both local lodges and all other Knights in the city will meet at the hall in East Main street, and at 7:15 will form in line and march to the tabernacle, to which they have been invited. The invitation was recently accepted, and an effort is being made to get a large crowd out. The Uniform Rank, with the drum corps, will head the procession, and everybody in town will know we are still on the map.

KNIGHTS OF MACABEES.

Octagon Tent No. 132.
The 24th anniversary of Octagon Tent, 132, Macabees, was celebrated. District Manager W. W. LaPort was the speaker of the evening. One member was given the obligation and two other applications were received. On Tuesday evening at 7 o'clock all Sir Knights and Ladies of the Macabees and their families are requested to meet on the west steps of the court house for the purpose of attending the tabernacle.

ROYAL NEIGHBORS.

Tuesday evening Daisy Camp met with a large attendance. A number of applications were presented and accepted. On May 8th the camp will celebrate its sixteenth anniversary with a 6 o'clock dinner and later in the evening there will be a class adoption. Visitors from Zanesville, Columbus, Coshocton and Alexandria are expected. Cedar Camp, M. W. A. has extended an invitation to Daisy Camp to accompany them in a body to the tabernacle May 9.

W. R. C.

The regular meeting of Lemert Relief Corp. was held Wednesday afternoon. President Mrs. J. E. Hebron presided. Forty members were present. There were three initiations. Resolutions were adopted on the death of Mrs. Jane Ball, one of the oldest members of the order, who died recently. Comrades Burch, Steele and Hoiler were present. Captain Steele made some patriotic remarks. After the meeting the ladies held an apron sale and an ice cream social.

HOW FAT FOLKS MAY BECOME SLIM

Fat persons will be interested to learn that they can easily reduce their weight without starvation diet or tiresome exercise. Eat all you need, but chew your food thoroughly, so that you will not overeat your assimilative organs, get fresh air and take a few drops of oil of korein four times a day.

Five drops of korein—five drops to the capsule—may be obtained from the drug-gist. This preparation is absolutely harmless, and it is not a laxative. It is composed in connection with the other simple directions—to reduce fatty accumulations in the system.

WM. A. FLEMING FOR RECORDER

To whom this may concern:

As the people of Licking county all remember, I was a candidate at last August primaries for the nomination for County Recorder on the Democratic ticket. There were seven candidates in all and I stood second in the race. The contest was really between Mr. Dudgeon and myself. I have never held a county office nor held any clerkship in the Licking county court house. Now that Frank B. Dudgeon is gone and there will be a vacancy in the office, it does look to me that I should have the place. As soon, therefore, as our prosecuting attorney shall determine the appointing power, I shall, certainly, urge my claim.

Respectfully
WM. A. FLEMING.

Entered as Second Class Matter March 10, 1882, at the postoffice at Newark, Ohio, under the Act of March 3, 1879.

Let us have faith that right makes might, and in that faith let us, to the end, dare to do our duty as we understand it.
—Abraham Lincoln.

THE ARMY BILL.
The United States is now at war and there should be neither delay in action nor needless sacrifice. The old-fashioned volunteer system of selecting an army has never succeeded and there is no reason to believe that it will succeed now against the powerful military forces of Germany. The selective draft as proposed by the President would call to service all men between certain ages, leaving it to be determined after they respond whether to employ their services in the army, on the farm, in the factory, or office. While America is free, it must not be forgotten that freedom implies obligation and democracy rightfully demands service when it is needed. The government does not call for volunteers when finances are needed but through congress levies taxes upon the people. Men as well as money are now needed to preserve the republic and it is no more right that the selection of men should be left to volunteers than it would be to allow the fund to be subscribed voluntarily. If the volunteer system should be tried and if it should fail as it would, conscription would then be necessary and with it odium would then be attached and the failure of the system would mean the sacrifice of America's best young men, leaving the slackers to fill the ranks later. Congress has been discussing the Army bill during the past week and is concluding the discussion today. The House is expected to pass the conscription bill and the senate will no doubt pass it tonight. Already the war department is setting the machinery in motion to give us a great army. Plans for opening the military training camps on May 6th are moving rapidly. Sentiment largely favorable to the volunteer system because the words "draft" and "conscription" are not popular in the American mind, has changed rapidly the past few days and the public is realizing that the just, equitable, scientific and right way to proceed is according to the plan proposed by President Wilson.

VOLCANIC ACTIVITY.
The recent eruption of Lassen Peak, in California, calls attention to the fact that that peak is one of the very few active volcanoes in the United States. Lassen, however, is one of the "leftovers" of a large group of formerly active volcanoes that have become extinct in times which to the geologist are comparatively recent. Mount Shasta is one of these. Mount Hood, in Oregon, may be regarded as still smoldering, for it even now exhales vapor, as it does Mount Rainier (or Tacoma). Mount St. Helens and Mount Baker, in the state of Washington, were in eruption, according to the new Encyclopedia Britannica, as recently as 1842 and 1843. Few volcanic peaks are found in the Rocky Mountains, but evidence of lingering volcanic activity in that region is seen in the geysers and hot springs of the Yellowstone National Park. In that park there is a so-called "mud volcano," which at intervals throws up mud and stones, and is usually in a state of violent agitation, emitting sounds that are sufficiently terrifying to any one who has the courage to venture close enough to look into the black depths of the crater. A curious phenomenon in connection with volcanic activity is that more volcanoes are found in the arctic or sub-arctic possessions of the United States than elsewhere within its limits. Alaska has many volcanoes, most of them quiescent. Conspicuous to these is the Aleutian volcanic belt, which is a narrow, curved chain of islands, extending from Cook's Inlet westward for nearly 1,600 miles. The United States, besides the area of Alaskan volcanic activity, claims in its Hawaiian possessions, the greater single volcano in the world—that of Mauna Loa ("Great Mountain"). This greatest of volcanoes has, like Lassen Peak, been in a state of violent eruption within the past few months.

THREE YEARS WAR?
The English and French military experts who are now in Washington conferring with the officials of the United States declare that this country is confronted with a five years war unless the people of America are aroused to the terrible consequences of their failure to realize the critical situation that exists. They say that the United States faces three years of active warfare and that if quick action is not taken in sending men and supplies to France that the struggle will continue beyond that time. The men from England and France declare that European troops must be in the trenches within the next year or 18 months. Driven by the fear of having to enlist many bachelors in the large cities have been attacking the Hindenburg line of spinsters. The war department's ruling that marriages contracted since the declaration of war will not exempt men from military duty has in a measure reduced the number of April weddings. Our hat is off to Representative Mann, the Republican floor leader of the House, who at Washington last night, broke his silence on the subject of conscription with an emphatic declaration in favor of the staff bill as recommended by President Wilson.

Daily History Class—April 28.
1759—James Monroe, fifth president, born; died 1831. President Monroe, in 1823, declared that the American continents must not be considered subjects for colonization by European powers and that European interference with governments in America which had declared their independence of European control would be regarded as unfriendly to the United States.
1808—United States navy bombarded Spanish forts at Matanzas, Cuba.
1916—Kut-el-Amara, with British and Indian garrison of 9,000 effectives, remnant of 30,000, surrendered after standing siege five months. Relief column was less than twenty miles away.

ASTRONOMICAL EVENTS.
Arcturus, reigning in the east, may be favorably viewed through the early evening. Planet Saturn 1 degree north of the moon; sets about midnight a few minutes ahead of the moon.

SOME FOOD PROBLEMS.
(Philadelphia Record.)
A good deal of misinformation is being spread abroad with respect to governmental activities in securing labor and organizing the production of things essential to the conduct of war. The fact is that the problem of supplying ourselves, the nations of the Entente and friendly neutrals with food is regarded as second in importance only to the problems of raising, training and equipping an army of 1,000,000 or more men, and of increasing our naval power. Indeed, the food problem is, perhaps, not second in importance even to the two latter, and it includes the problem of overseas transportation. So far as the preparation and distribution of beef, pork and other meat products are concerned the existing organization cannot be bettered, and in the packing industry there is no known deficiency of labor. Little could be done toward an immediate increase of the supply of beef cattle; it takes three years to raise a steer and fatten it for the market. Conservation and encouragement of the stock-raising industry by appropriate measures would be the extent of governmental intervention. Departmental activities in this industry, as in packing house and storage operations, would be regulative and supervisory, and have nothing to do with their organization or with the labor supply. With respect to transportation overseas the most crying need is tonnage, and this Government is getting ready to supply through the construction under the direction of the Federal Shipping Board of 1000 wooden cargo carriers of approximately 4000 tons each. To enable the shipyards in which wooden vessels were formerly constructed to aid in carrying out this plan a large force of workers will have to be supplied and trained. The department of labor has undertaken to recruit this force and is co-operating with the trades unions and the prospective employers of the force to this end. The Department has also undertaken to supply a lack which is likely seriously to reduce the productivity of the canning industry unless help is given. Throughout the country, but particularly in the East and in the vicinity of munitions plants and other war industries, truck gardening is practically paralyzed for want of hands to cultivate the crops, or even to plant them. The Department wants immediately and above all things to know the facts of the situation in each locality, and assuming that the canneries, having a most direct interest in the matter, would be familiar with conditions at the sources of their supply, the proprietors of these establishments are requested to get in touch with the authorities in Washington without delay and specify the local needs. The Department of Agriculture is fully occupied with the recruitment of workers in the grain fields, and so the Department of Labor is specially interested in truck farming labor. It wants to know what aid if any, is being given by local bodies and what help is needed. This invitation is official.

Spirit of the Press
Welcome Joffre.
Field Marshal Joffre, the American people salute you!
You have achieved for France and for yourself imperishable glory.
But you do not belong to France alone.
You belong to the world and we claim our share of you.—Columbia Citizen.

Same Service For All.
There can be no genuine universal service in war if the wealthy young man can "buy off" and hire a substitute. Hence the amendment proposed to the bill pending in Congress should go through. Compulsory service only for the poor worked badly in 1861, and through the Great Rebellion.—Brooklyn Eagle.

Washington Conference.
For the official representatives of Great Britain, France, and the United States to have met together in the Capitol at Washington for any purpose would be cause for rejoicing; but to have them meet in a council which has for its purpose the co-ordination of the armies and navies of those three nations in a struggle for the establishment in the world of a pure democracy—for those three nations to have the privilege of representing as they do all of the liberty-loving nations and people of the world, is in itself a WONDER—and a GLORY.—Columbus Monitor.

Pointed Paragraphs
Oh, say, can you sow by the dawn's early light.—Philadelphia Ledger.
The armed merchantman has its valuable uses in war, as the exploit of the Mongolia shows.—Columbus Dispatch.
Any eligible man who dislikes the sound of "compulsory service" has the privilege of volunteering.—Washington Star.
The old-fashioned bounty-jumper now has a son who is opposed to compulsory military service.—Boston Transcript.
Whether this country is at war or at peace, it'll find Count von Reventlow a hard man to please.—Washington Post.
The reported offer by the Kaiser of Gibraltar and Morocco to Spain for aid in the war reminds one of the man that used to sell the Brooklyn Bridge every morning.—Kansas City Times.

Did You Know
That patents are issued in the name of the United States and under the seal of the Patent Office? They may be issued to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter, or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication, before his invention or discovery thereof, or more than two years prior to his application and not in public use or sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned. Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents.

Limerick Contest.
Miss Helen Holtschulte, the prize wins this week, as you see.
When she recited, did you think that she'll exclaim, "I see?"
Young Federal Board McGee got down on an "it" so.
While his head was here good let it be understood that he's something stronger than "it."
—Helen Holtschulte, 9 Madison Ave.

Chicago stock yards for which his life ambition has trained him.
Louisville Courier-Journal.
A good many of us are still neutral in the sense that we don't care whether it's the French or the British who break the German line.—Charleston News and Courier.
Ethiopia Root, as a possible emissary appointed by the President to aid the new Russian Government, is but another evidence that political lines are not recognized in the present crisis.—Washington Herald.

LT. COL. FABRY, "BLUE DEVIL OF FRANCE"
THANKFUL TO AMERICA FOR WOODEN LEG
(Associated Press Telegram)
Washington, April 28.—Lieutenant Colonel Jean Fabry, Marshal Joffre's chief of staff, attracted almost as much attention in the streets of Washington today as his superior when stories of his gallantry in action became known.
"The Blue Devil of France," as he is known in his own country, probably has experienced as many thrills as any man in the French army. As commander of a battalion of alpine chasseurs, he led his men in the battles of the Marne, Ypres, Dixmude, Arras and in the Vosges. In a gallant action in which his battalion carried by assault a position on the height of Haelcherkerou, Lieutenant Colonel Fabry lost a leg. M. Hovelacque, speaking of him today said:
"The Blue Devil of France" is grateful to America for the wooden leg he is wearing, but he is not so grateful at the price he had to pay for it. Colonel Fabry is a remarkable man. He has been wounded several times and has seen some of the most dreadful things that have occurred during the war. Here is what happened at the Yser:
"Fabry, in command of about 1,600 men, defended a long line for a week against German line after German line that sought to break through. The earth was soft, so soft, in fact that the only parapet that could stand had to be made out of some other substance. He used the dead bodies of Germans, and when they decomposed he would discard them and would throw out a hook and haul up more for the same purpose."
His best friend was killed beside him. Because of the nature of the earth it was possible to dig down only a foot before striking water. He buried the man and then for days lived and fought for France with only a foot of earth separating him from the body of his friend. Terrible hardships were experienced. Food and ammunition had to be brought with great danger under cover of darkness and it was impossible to move the body until some time later.
The Germans it might be added, did not break through the lines held by "The Blue Devil of France." The uniform of officers of the alpine chasseurs is sea blue.

Doc's Little Joke.
Aunt Caline says:—Ole Doc Carvem he went into Had Bunyan's las' nite to see Iva which she is sick, an' there set little Soar which is Had's little boy, with his face so swole with cryin' he didn't look like a human boy. "Well, well," says Doc, "an' what's the matter here, young feller?" he says. "Teec her he licked me," says Soar, "beginnin' to suffle again at the bare recollection of it. "What for?" says Doc. "Nothin' a tall, Doc," says Soar. "he jest simple kep' belked of us in after school an' heked the hole kaboodle one after tother." "Land o' Mike!" says Doc, "that there man he hain't no teecher!" he says. "him,—he's a hoisalee liker man, he is," he says. a-chucklin' down deep into his chest.

Names Are Names.
We have often heard people say, whether they meant it or not, that they would rather be right than President, but, on the other hand, Mrs. Mary Wrong of Youngstown, O., deliberately chose the opposite.
Do We Hear a Second?
The pronunciation of cabbage ought to be changed to rhyme with massage, garage and other luxuries.—Pittsburgh Gazette Times.
But also, we should like to suggest "potato" as more befitting the recently acquired exclusiveness of it.

Sea of Matrimony.
One day he took the marriage vow, And copped him out a bride, But he is settled down, and now He's drifting with the tide.
—Luke McLuke.
With sad and awful countenance One day to me he said, "I'm quite aware I take the chance Of breakers just ahead."
—Newark Advocate.
To say he's drifting with the tide, Is sadly off, I fear, His pilot is his blushing bride And she knows how to steer.
—Detroit Free Press.

There once was a young girl named Helen.
Who had a most awful sore felon: She fumed and she fussed, And some said she cussed. But then,—well, you know, there's no tellin'.
—D. C.
A regular pig was young Jake. Ate all of his mother's plum cake: Cried, "I'll do it no more!" For my stomach is sore!" "So am I," growled the father of Jake. —C. S. Thompson.
An ethereal maiden named Maud Was indeed quite a bit of a fraud: She was quite unable To eat at the table, but back in the kitchen.—Oh, Maud! —J. W. T.

An Indian.
A girl in a wigwam once said, "Oh, I honestly wish I were dead: There's nothing to do and nothing to eat and chew," And she sighed then because she was red.
—Helen Warman.
There was a young maid at the beach Who emitted a terrible shriek: "While a ferocious shark Locked gloomy and dark, For he just missed a bite of a peach."
—Bath Herald.

Weariness he attempted to feign.
As he painfully limped with a rein: "That cane for a snide," Your laziness gives me a pain."
—Harley Kanne.
A lady mosquito was seen To fix in where there wasn't a screen: Her action was rash. For the man made a dash,— "Just a mark where the lady lay."
—Chit. Ness.

If You Want
Beautiful Hair

You can easily keep your hair in fine condition if you will be careful what you wash it with. Do not ever use cheap soap or cheaply prepared shampoos that contain too much alkali as they are liable to dry the scalp and make the hair brittle.

The best thing to use and the least expensive is kreamol, a liquid which cleanses the hair and scalp thoroughly. It makes an abundance of rich creamy lather and rinses out easily and removes the dirt, dust and dandruff. Simply moisten the hair with water and rub in one or two teaspoonfuls, massage well and then rinse in clean water. Almost any drug store can supply you with kreamol and a four ounce bottle is enough to last every member of the family for many weeks.—Adv.

Kreamol is sold at Evans' Drug Store (Warden Hotel Block), Newark, Ohio, and Ullman's Drug Store, Granville, Ohio.

Safe Home Remedy
for Skin Troubles

Eczema, ringworm, and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need never hesitate to use, even on a baby's tender skin—that is the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over twenty years.

Generally resinol stops itching at once, and heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggists.

Resinol Soap is not only unusually cleansing and softening, but its regular use gives to the skin and hair that natural beauty of perfect health which cosmetics can only imitate.

STOMACH UPSET?
Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

Society

A recital for the benefit of St. John's Evangelical church will be given by Miss Esther Graef, vocalist assisted by Mrs. Emil Kraft and Miss Ethel Haynes, pianists, and Mr. Howard Jackson, violinist, on Tuesday evening at the church.

Mr. and Mrs. E. F. Ryan of Dewey avenue entertained at their home on Thursday evening with a miscellaneous shower honoring Mr. and Mrs. Frank Ryan, formerly Miss Alice Riggs, whose wedding took place last week.

About sixty guests were entertained informally and delicious refreshments were served.

Mrs. W. C. Gardner of 516 Hudson avenue will entertain with a card party and tea for the benefit of the American Fund for French Wounded, Wednesday. Cards from two to four an idea from four to five. Tables can be reserved by telephoning Mrs. Gardner.

A large party enjoyed the last dance of the series given by the H. V. B. club members at Moser's Hall on Tuesday evening. The dances have been delightfully successful both financially and socially and many will be interested to learn that plans are being completed for a series of dances to be given this summer at the Yacht Club at Buckeye lake.

Announcement has been received here of the marriage of Miss Catherine Cohnan and Mr. James McGartaght, which took place in Bone, Iowa. Both the bride and bridegroom reside in Perry, Ia.

The bride formerly resided for several years with her parents in Hudson avenue, and she was employed as stenographer for the Holophane company. The family then went to Iowa and she has been bookkeeper for the First National Bank at Perry, Ia.

Mr. McGartaght is employed in the construction department of the Iowa Railway and Light company at Perry, and they will make their home in that city. Since leaving Newark, Mrs. Taggart has been the guest of Miss Leona Eagan on several occasions.

NEED 6229 CARS AND 366 ENGINES TO MOVE TROOPS.
(Associated Press Telegram)
New York, April 28.—A statement of the railway requirements to move troops and supplies has been distributed today by the American Railway Association's special committee on National Defense.

To move one field army of 80,000 men it is indicated by a statement, which was prepared by the government, 4.2 per cent of the nation's passenger cars would be required. A total of 366 trains, comprising 366 locomotives and 6229 cars would be necessary to transport such an army, the statistics show.

CLARK TELLS CRITICS TO ENLIST IN THE ARMY
Louisiana, Mo., April 28.—Thirty-seven citizens of Pike county, the home of Speaker Champ Clark, sent him the following telegram:

"We believe failure to pass universal service bill at once will be a national calamity. Volunteer system unfair, unjust and will fail."

Speaker Clark today replied as follows:

"Tell all who signed telegram that recruiting offices for both army and navy volunteers are now open at Jefferson Barracks, near St. Louis. None of you will have any trouble getting into the service."

How the World May End.
Sometimes it has been suggested that the world will gradually become cold, so that life will be frozen out. Mr. Rabourdin, a French novelist, however, thinks it possible that the earth may end in an incandescent blaze.

The earth's crust, he says, is very thin at the bottom of the sea, and should it give way in consequence of volcanic action the earth might be consumed in flames.

"Suppose," he states, "that, following an extraordinary twisting movement, due to retreating of the central mass, a large mass of the sea bottom should give way, and, falling suddenly, should let in the mass of the ocean's waters upon the incandescent interior matter. The water would be decomposed by the heat, the hydrogen would burn, and it would burn more as it had access to more oxygen."

"The conflagration would then gain in force, accompanied by electric phenomena, and the greater part of the earth's crust would probably be displaced. The earth passing through a critical epoch and returning for the time being to its formative period would again be nothing but a globe of fire."

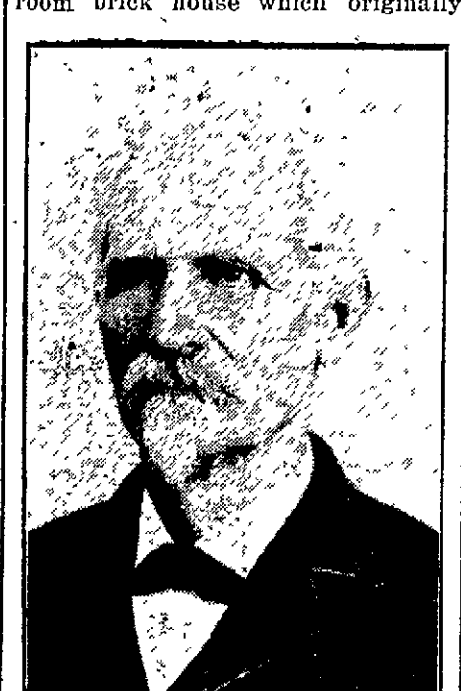

India Paper.
Processes used in the production of certain kinds of paper are trade secrets.

Thus the methods employed to produce the thin, tough, opaque variety, known as the Oxford India paper, have never been divulged. It was first made in England at the Clarendon Press paper mills in 1875 and was used for printing an edition of the Bible.

Of two evils choose the one that isn't made in Germany.

ELI HULL OFFERS VALUABLE SITE FOR A LIBRARY

ELI HULL.

Eli Hull, well known local man, today offered his residence property at West Main street and Neal avenue to the county as a location for a county library. The property includes a fine lot with a frontage of 80 feet on Main street, with a depth of 400 feet, and a three story, 20-room brick house which originally cost \$25,000.

Besides the monetary value of the property, it is valuable for its historical interest, the house standing within a circular Indian mound which has been carefully preserved.

Mr. Hull proposes to give the property to the county if the officials will arrange to establish a county library there. He proposes that if the county fails to establish a library in two years or fails to maintain the library if it is established for five years, it shall revert to Mr. Hull, if he is living or to the city of Newark if he is dead. He authorizes the city to use the ground for any public purpose it sees fit, if it gains title to it.

Mr. Hull's proposition which follows has been taken under consideration by the commissioners who thanked him for the very generous offer.

Newark, Ohio, April 25th, 1917. To the Board of County Commissioners, Licking County, Ohio.

I have the honor to propose to convey to the County of Licking my residence property, being lot number twenty (20) in Hull Court, as designated and described on the plat of Hull's Court Addition, on record in said County, for the consideration of one (\$100) dollar by general warranty deed in fee simple, free from all encumbrances, in trust, nevertheless, upon the following conditions and provisions:

- 1.—That the County provide and maintain therein forever, a well equipped public library for the use of the people of said County perpetually, and for no other purpose, said library to be established, equipped and maintained under and by virtue of the provisions of an Act of the Legislature of Ohio, passed May 27th, 1915, entitled, "An Act to provide for the establishment, maintenance, care, management and control of a county library in counties where a library has been bestowed upon the county by other gift or bequest." Volume 105-8 O. L. 485, or under any subsequent legislation having for its object the general purposes provided in said Act.
- 2.—That the said County shall keep the buildings on said real estate insured in an amount sufficient to restore or replace them in case the same shall be injured or destroyed by fire.
- 3.—That the said County shall keep the grounds in good condition and pay all legal public levies made against said property.
- 4.—That if the said County should fail within two years after the said deed is delivered to establish said library in said property, or after having established such library shall fail for a period of five years to maintain the same, or shall fail for said purpose, then said trust shall ipso facto terminate and be at an end, and the title and estate in said real estate shall thereby be and become forfeited and the title to said real estate shall thereby revert to and vest in fee simple in the undersigned, if he be living, and if dead, then in the City of Newark, Ohio, to be used for any public purpose but not to be sold or disposed of by said City and said Hull, if living, and if not, the said City shall have the right to enforce said forfeiture at any time after the death of the undersigned.
- 5.—That said deed will be delivered as soon as the County, by its Commissioners, shall by resolution duly passed accept this offer and gift and shall thereby agree to perform the conditions hereof and provide the ways and means to establish, maintain, manage and control said library perpetually in said premises in accordance with the provisions of the Act of the Legislature above referred to.

Respectfully submitted,
ELI HULL.

RECOVERS PARCEL POST PACKAGES.
(Associated Press Telegram)
London, April 28.—The American consulate here has secured the release from the British prize court of more than 2,500 parcel post packages which had been seized on the way from the United States to Austria. Nothing contraband was found in these packages and they will be returned to the senders.

BUY OKLAHOMA OIL LANDS.
"Oklahoma, April 28.—A deal for Oklahoma and Kansas oil properties said to represent a value of \$5,000,000 is being closed by the Paragon Oil Refining Co., The Paragon Co. will take over the majority holdings of a group represented by J. W. Gilliland of Tulsa, Okla., who is here meeting with the directors of the Paragon Co.

Personal

Walter F. Orr, a junior of Ohio University, Athens, O., is spending the remainder of the present semester with his parents at Jansontown. He was one among the many having collegiate standing enough to perform certain agricultural labor on a farm and to receive full semester credit.

William W. Neal who has been spending the winter in Florida, returned home yesterday.

Mrs. Charles Butte was removed to her home, 255 West Main street today from the City Hospital after an operation performed by Drs. Evans, Postle and Nye.

Mrs. Belmar Livingston, who was recently operated upon at the City Hospital by Drs. Evans, Postle and Nye has been removed to her home in Garfield avenue.

Mrs. W. H. Hickman of West Locust street and Mrs. Laura Kunkler of East Main street, returned from Roseville last evening, where they attended an entertainment given by the Daughters of Veterans.

Mrs. A. B. Crane went to Mt. Vernon today for a few days visit with her sister, Mrs. Angeline Dean.

Charles Settles of Zanesville is a business visitor in the city today.

Miss Mary Kent, demonstrator for the Pictorial Pattern company, is at the J. J. Carroll store.

Obituary

Mr. Moull's Funeral.
The funeral of Orlando V. Moull, who committed suicide yesterday by shooting himself with a rifle, will be held Monday afternoon at 1:30 o'clock at the home in Jefferson Lane, Rev. Grover Diehl officiating. Friends are invited to the funeral. The burial at Cedar Hill cemetery will be private.

Mrs. Fraley's Funeral.
The funeral of Mrs. Amanda Jane Fraley will be held at the home, 143 South Pine street, Monday morning at 10 o'clock, Rev. M. R. White officiating. Burial at Cedar Hill cemetery.

Mrs. M. L. Shively. wife of Patrolman Shively, of No. 4 Pleasant street, was called to Bowling Green, O., today on account of the sudden death of her father, Daniel Collier, a civil war veteran. He was born in Wayne county, January 1, 1844, and enlisted in Company K, 103d O. V. I. and serving three years. He was a member of Wiley Post, No. 46, G. A. R., and was aged 73 years, 3 months and 26 days. Death was due to a complication of ailments.

Funeral of Hugh McKenna.
The funeral of Hugh McKenna, who died in Detroit, Mich., was held at St. Francis de Sales church, Saturday morning at 9 o'clock. Interment was made in Mt. Calvary cemetery.

MR. HALL'S FUNERAL.
The funeral of William Hall who was found dead at his home near Granville last morning, will be held Monday afternoon at 2 o'clock at Eden church. Rev. R. E. Caiman officiating. Burial in Eden cemetery.

NORTHCLIFFE OFFERS AID TO U. S. PUBLISHERS

(Associated Press Telegram)
Washington, April 28.—Lord Northcliffe, the noted British publisher, has offered the output of his print paper mills in Northeastern Canada, to American newspaper publishers to relieve the print paper situation. The output of the mills is 60,000 tons a year and a sufficient factor to probably break the present high price market.

HERTLING CONVERS WITH VIENNA CABINET ON PEACE PROSPECTS

(Associated Press Telegram)
London, April 28.—Count Hertling the premier of Bavaria, says a dispatch from Munich by way of Amsterdam to the Central News, is going to Vienna to confer with the Austro-Hungarian cabinet ministers regarding peace prospects.

GUATEMALA JOINS U. S. IN FIGHTING FOR INTERNAT. LAW

(Associated Press Telegram)
Washington, April 28.—Guatemala has broken off diplomatic relations with Germany; handed to the German minister his passports and cancelled the exequatours of German consuls there.

Official advice of the break, coming from the American legation in Guatemala City said President Estrada Cabrera assigned as the reason for his act his desire to stand with the United States in the fight for democracy and the preservation of international law.

For some time President Cabrera's advisers have been urging him to take the step and join the family of nations against Prussian autocracy.

HALE IS SECRETARY OF CO. FAIR BOARD; ELECTED SATURDAY

At a meeting of the Licking County Agricultural Society held this afternoon, Harry D. Hale was unanimously elected secretary of the society to fill the vacancy caused by the death of Frank B. Dudgeon, who had filled the position for two years. There were several applicants for the position. Mr. Hale's experience as a newspaper man will be of great benefit to him in his new position and to the society, as much of the success of the annual agricultural efforts.

GETS REFORMATORY SENTENCE.
(Associated Press Telegram)
Cleveland, O., April 28.—An indeterminate sentence of one to five years in the pen and a fine of \$250 and costs for blackmail was imposed on Charles Smith, business agent of the Building Trades Council, today by Judge Vickery. Smith was convicted on a charge of demanding \$2,000 to prevent a strike of workmen engaged in building construction.

WHAT OHIO CLUB WOMEN ARE DOING
(Mrs. Prentice E. Rood, Director of Press)

In making up the program for the coming year, it would be well to keep in mind the various departments of the federation and to a certain extent conform with the topics embraced by these committees.

It must appeal to every woman that these are serious times, and the continuing of a purely literary program except as it may be brought to bear upon our immediate problems, is a sad perversion of time.

The Federation Seal.
Are you trying for the prize offered by the art committee for a Federation seal? Write to Mrs. George W. Stevens, Toledo Museum of Art, Toledo.

To Newly Federated Clubs.
The only outstanding obligation in our federation at the present time is the Loan Scholarship Fund. In 1910 it was voted to raise a state fund of five thousand dollars, to assist Ohio girls, graduated from our public schools, to advance training in our Normal schools and colleges.

Each member of a federated club was pledged to pay a total sum of forty cents, through her club, at the rate of five cents a year for eight years. This club year ends the seventh year. If the new clubs could make this assessment in 1917 and 1918, or in one payment, we would be able to devise some new plan for amount unpaid at end of allotted time.

Community Singing.
Mrs. W. D. Steele, of Sedalia, Mo., chairman of the department of music of the general federation urges all clubs to aid in creating a musical atmosphere in the community. She especially recommends the standardization of music in the public schools and the establishment of community singing.

Garbage Waste.
The federal government has made the almost incredible statement that there is a waste of seven hundred thousand dollars every year in garbage. If this be only partly true, here is work for the club women of the United States. We may be able to fight for our country, but we can learn to conserve all food products, and do our small share in the great conflict.

Children in War Time.
It is claimed that thousands of children besides those directly affected by the war, have suffered from the world calamity. There has been increased juvenile delinquency, more children have been obliged to work under adverse conditions, the health of mothers and babies has been endangered, and homes have been broken up because of the necessity of mothers seeking employment.

The children's bureau of the United States believes that our country should profit by the experience of other countries and make all possible provision to protect the children.

A well-planned program will be of inestimable value toward this end. The bureau will gladly send bulletins of directions for Baby-Week campaigns, to any address.

Club Notes.
The city council of Fostoria, in co-operation with the city federation of women's clubs, is working for the success of a rest room.

The Bucyrus city federation has taken charge of the red cross work of establishing a base hospital unit of 50 beds. Training classes are being formed and will be taught by a nurse who spent a year at a red cross hospital in lower Serbia during the early part of the war.

The Kensington Art club of Youngstown has started a patriotic movement which should be followed by all clubs. The principal topic of interest to all housewives is "food conservation" and this club is making a practical demonstration by reducing the regular club luncheon from the usually elaborate menu to a minimum, with marked success.

The McClellan Brown sorosis of Cambridge was instrumental in organizing the Cambridge city federation. Although only two years old, it has done some splendid civic work.

The Louisa M. Alcott club of Dayton co-operates with the various committees of the city federation. One of its members is leader of a neighborhood club, the purpose of which is to help women who are not members of any club, because of many household duties yet desire to learn something outside the daily routine of their lives.

No, Maude, dear; we don't if uniform made of broadcloth would improve the appearance of narrow-shouldered soldiers.

Granville
[Special to The Advocate]
Granville, O., April 28.—All Granville is interested in the military training of the 350 Denison students which goes on three times a week with an extra day for officers' drill. Yesterday afternoon the forces assembled in front of the Conservatory on Broadway at 1:30 and were thoroughly drilled in squads for over two miles, turning north at Bryn Du farm and returning to Granville via the picturesque but strenuous Welsh Hills road. At 5 o'clock they gave an exhibition in calisthenics on the town plaza, the asphalt between the churches, and all this in the face of a persistent dampness in the atmosphere.

Dr. C. L. Williams, whose health is somewhat impaired by over work, has been granted a leave of absence from his duties as head of the English department, until September. His classes will be in charge of Prof. McCutcheon.

"The new Athletic field is to be the first work in connection with the plans for a greater Denison, and this, when completed will be without a peer in Ohio, not even the proposed Ohio State field equalling it in completeness. Work is to be begun this spring and it may be possible to use the main gridiron for football next fall," so says the Denisonian in a somewhat lengthy article describing the plans for the new grounds. There is to be the varsity football field, quarter mile track, and baseball diamond, with the large concrete grandstand overlooking all three. In addition there will be four practice gridirons, four practice diamonds, a hockey field and numerous tennis courts. There will be separate courts for the faculty, fraternities, dormitories and varsity, making in all 35 courts. "The men's new gymnasium will be on the side of the hill among the men's dormitories, and near the fraternity hall. Thus all athletic interests will have been accommodated, and Denison teams in the future will be singing their contests amid surroundings of which any university in the country would be proud."

Today the old town is full of visitors, come to enjoy the great programs presented by the Festival association, in the person of Director Eschman. The Russian Symphony Orchestra is a lure for music lovers wherever booked. The notable performances in one day:

The Denison students' annual "sing" on the plaza last evening was a great success, judging from the harmony of sweet sounds which floated over the quiet village, punctuated by occasional yells that would have done credit to a band of Comanche Indians on the trail.

The girls of Shepardson college have been asking "what can we do to help?" and about a hundred of them have found work in the Red Cross classes, directed by Miss Bradstreet and Dr. Mitchell of Newark. Other work has suggested itself in connection with the students' military drill. Over one hundred girls have volunteered to wait tables in the dining room on Monday, Wednesday and Friday evenings when the waiters would be so tired after a long, afternoon's hard drill. The plan has been tried for a week and is very successful.

Baptist church, Sunday: Rev. Mildard Breilstone, pastor, will preach for both services. Morning topic: "Our Daily Bread"; evening, Genesis stories, "The Cave of Macpelah."

Presbyterian church, with the usual services at 10 a. m. and 7 p. m., conducted by the pastor, Rev. E. D. Barnes.

Methodist church: Preaching by the pastor, Rev. Otto Geisen, at 10 a. m., "Ye Shall Receive Power"; at 7 p. m., sermon by the pastor.

Mrs. Clara Brumback, lady principal of Shepardson college, is in Columbus today, representing the institution at the meeting of the Bryn Mawr club, a conference for vocational guide for college women of Ohio. The address will be given by the president of Bryn Mawr.

Miss Ora Brennan of Columbus is one of the out of town visitors to the festival, the guest of Prof. and Mrs. K. H. Belman.

Rev. J. H. Wylie of North street has been called to the bedside of his eldest sister, Mrs. E. S. Hackney at Uniontown, Pa., who is not expected to live.

SOCIALISTS OPPOSE STRIKE.
(Associated Press Telegram)
Amsterdam, April 28.—Via London.—The Berlin Socialist newspaper Vorwaerts publishes a declaration of the general committee of trades unions asserting that the German working classes will not cease work on May 1st and deploring the circulation of fly sheets inciting the workers to a political or revolutionary strike on that day.

YOU NEVER CAN TELL. JUST BECAUSE A MAN IS HOT-HEADED, DON'T JUMP TO THE CONCLUSION THAT HE MAKES A WARM FRIEND.

CAN WALK 3 MILES

Troubles of Heart, Stomach, Digestion All Removed.

To look at Mr. David T. Remington of Springfield, Mass., one would say, "he is as sound as a nut."

And so he is, thanks to the new combination of purifying and building up treatment embodied in Hood's Sarsaparilla and Pepsitron Pills.

Mr. Remington is one of the best-known men in the state, having been for 21 years in the State House in Boston as Senate Door-keeper and Sergeant-at-Arms.

He says he had annoying symptoms about his heart, stomach and digestive organs. His old friend, Senator George E. Putnam, of Lowell, urged him to take a course of Hood's Sarsaparilla and Pepsitron Pills, which he did, and now, "I never felt better in all my life. I can walk from house down town and back, 1 1/2 miles each way."

These pills are obtainable from every druggist. Why not begin this sensible treatment yourself today? (Adv.)

Safety in the Home
Part of Woman's Daily Duty

Every woman in charge of a household realizes that it is a large part of her duty to keep that household well.

In this task she must know the simple home remedies to be applied at the first symptom of illness.

Coughs and colds are two of the foes she must constantly combat, and digestive disturbances need immediate attention. Thousands of American housekeepers have found the most help to come from ever-ready-to-take

PERUNA
Because Peruna has established itself as the reliable family medicine of America, in the 45 years it has been before the public, the forehanded housekeepers keep it ready for instant mobilization in the period of depression that precedes a cold, or when stomach troubles manifest themselves. Both of these disorders are caused by inflammation of the delicate membranes lining the breathing apparatus and the digestive tract. Peruna clears away the waste, aids the membranes in recovering from inflammatory conditions and tones up the system. Its effectiveness is the reason that so many depend upon it, and its long record of merit maintains it as the dependable house tonic.

Tablet or liquid form—both good. Free booklet may help you. At your druggist or write us.

Today Women Are Better Corseted

BECAUSE OF

MODART CORSETS Front Laced

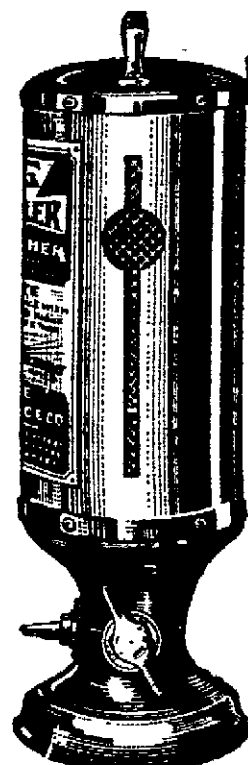

Front laced corsets, and particularly the MODART are daily becoming better known. The front laced corset has had a remarkable rise in popularity the last few years, because women all over the country are finding that the front laced corset does more for the figure, than any other corset. It fits like a coat. It cannot be drawn out of shape, or into any shape other than that which it is designed to portray. It gives the wearer a perfect back, and relieves all harmful pressure on the spinal column. A full realization of the superior design of the corset can only be appreciated by a TRIAL FITTING. Then the comfort becomes apparent—then the style lines are seen.

Have a trial fitting of a MODART FRONT LACED CORSET at no cost whatever. **\$3.50 to \$6.00**

LIQUORS MAY BE BANISHED IN UNITED STATES

Washington, April 28.—The war may put the manufacture of liquor under the ban in the United States. The question is whether the grain of this country shall be used for food or drink.

Each barrel of beer produced takes nearly two bushels of grain now needed for food purposes. Each gallon of whisky distilled requires almost one bushel of grain.

With the world's reserves of food-stuffs lower than ever before, with millions of men on the battle line who must be fed but who can produce nothing, and with many more millions engaged in the industrial process of war and who must be fed, the problem of food conservation is the biggest one in the world today.

Last year 29,748,692 bushels of grain were used in the production of distilled spirits alone in the United States.

But the consumption of grain in distilling high proof spirits was considerably less than one-third of the grain used in brewing the 58,033,624 barrels of beer we produced last year. In round numbers, 130,000,000 bushels of grain worth more than \$150,000,000, were used in the manufacture of alcoholic beverages.

The whole matter of food conservation will be brought to a focus with the return from Europe of H. C. Hoover, who has been in charge of food distribution in Belgium, but who is on his way back to act as director of Uncle Sam's food conservation work.

At a meeting of the Council of National Defense recently, Hoover declared that biscuits as much as bullets would win the war. He said that enough grain to save millions of thousands from hunger could be secured by preventing its use in the manufacture of alcoholic drinks.

As a basis to determine the actual necessity for such a step, if it exists, a grain census has been ordered and is now being taken by the department of agriculture. The census, altho incomplete, shows reserves of all grains to be at low water mark.

BROMLEY MEETINGS

(Continued from Page 1.)

shown. The evangelist proved that nothing impossible was required by God. He pointed out certain passages of Scripture which had a bearing on modern life.

Special stress was laid upon the great dangers of putting off salvation. That man a penny dies unsaved because of an unwillingness to acknowledge Christ, was Dr. Bromley's assertion. He quoted statistics to show the fearful death-rate in the United States and expressed himself fearful as to the fate of our nation. "America is pleasure intoxicated," he thundered. "I'm tired of people who talk about 'going to the front' yet dare not declare war against liquor."

After a short pause in order to allow his scorching truths to impress themselves upon the minds of the audience, Dr. Bromley prayed, and with bowed heads, the huge audience listened to his words. He then made an appeal for everyone who did not feel right to come and consecrate himself to God. Slowly but surely the conversion proceeded, and there soon was a large number upon the front rows. Good results are being seen, but still better cooperation is earnestly requested.

BROMLEY ANNOUNCEMENTS.

7:00 p. m.—Street meeting on the west side of the square.
7:30 p. m.—Services at the tabernacle.

Sunday.

1:30 p. m.—Services at jail in charge of Rev. S. B. Goff.
1:30 p. m.—Concert by the Booster Chorus on the square.

2:15 p. m.—Lecture to men only at the tabernacle. Rev. Dr. Bromley in charge.

2:15 p. m.—Women's meeting in the First Methodist church, Miss Ditzell in charge.

2:30 p. m.—Boys and girls meeting in the Central Church of Christ.

6:15 p. m.—Young People's mass meeting in the Central Church of Christ, Miss Rose Fetterolf in charge.

6:45 p. m.—Song service at the tabernacle.

7:30 p. m.—Preaching services at the tabernacle.

Forty-seven school teachers were present at the Bible study given by Miss Fetterolf in the First M. E. church yesterday afternoon. This is an increased attendance over the week before and the attendance, it is believed, will steadily grow.

Members of the Bromley party will preach in the following churches tomorrow morning: East Main Street M. E. church; C. H. Wicand; Woodside Presbyterian church, Miss Rose Fetterolf; Tenth Street U. B. church, Rev. S. B. Goff; West Side Church of Christ, Prof. Harris; Central Church of Christ, Dallas M. Blatt; Plymouth Congregational church, W. W. Shannon; Pleasant View U. B. Miss Ditzell.

Yesterday afternoon's service at the tabernacle was well attended in spite of the weather conditions. Rev. S. B. Goff, the assistant evangelist, preached, "Earnestness in prayer" was the subject of the sermon. A number went forward for prayer.

Director Wicand's "booster chorus" consisting of several hundred children specially trained to sing the tabernacle songs, will sing at tonight's meeting at the tabernacle, occupying seats in the choir sections. The adult chorus will sit in the audience. Sunday afternoon the children will sing on the public square and later at the tabernacle, preceding the men's meeting. A partial list of the members of the chorus follows.

Frank Reid, John F. Reid, Ralph William DeLong, John Umstott, Nelson Markham, Carl Rickrick, Alfred Waters, Louis Deutsch, Gladys Dutcher, Paul Drumm, Harold Davis, Fulton, William E. Richards, Carl Nelson, Thelma Accord, Tom Stevens, John Taylor, Kenneth Morris, Christened, Robert Stoffer, Robert Glaunsinger, Kenneth Morris, Willard Stormont, Kenneth Stormont, Edgar English, Kenneth Shannon, James Fitch, Waldo Cochran, Helen Brooks, Stephen Slack, Ralph Jackson, Edwin Rogers, Leslie Fitch, Donald Wilson, Bernice Winters, Irvin Cook, Karl Leidy, George Oxley, James Jones, Benjamin Bash, Earl Montgomery, Paul Hugginbottom, Elmer Finkelt, Stanley Griffith, Paul Loughman, Desie Hacker, Naomi Hawkins, Eunice Frances Griffith.

Evangelist Henry W. Bromley will start a series of noonday lectures next week. Luncheon will be served in connection with the lectures. Dr. Bromley will take up some of the fundamental themes of Christianity which especially appeal to business men. Such subjects as Miracles, Resurrection, Divinity of Christ, Existence of God, Inspiration, Creation, and Evolution will be discussed by the Evangelist.

MOSSER NAMED DIRECTOR

FOR OHIO ASSOCIATION

The Ohio Commercial Secretaries' Association, in convention at Dayton the past two days, adopted resolutions sustaining President Wilson's war program and the members pledged themselves to work through their organization for the agricultural and industrial preparedness program. The association includes all the larger and many of the smaller cities of Ohio.

Manager Geo. H. Mosser, who made an address on "Organization of Commercial Bodies," was elected one of the five directors of the association. The officers for the coming year are J. M. Guild of Dayton, President; W. C. Calkins of Cincinnati, Vice President; H. J. Howenstine of Circleville, Secretary-Treasurer. One of the features of the convention was a trip through the National Cash Register plant and on inspection of Dayton's wonderful community park and playground system. Perhaps no other city in the world has made such humanitarian progress in providing proper recreation for its people as Dayton. Manufacturers vie with each other in providing such facilities for their employees, the ground that it increases their output through better service.

100 RESERVE PLACES AT

G. O. C. ANNUAL DINNER

Nearly a hundred reservations had been made today for the annual dinner of the Chamber of Commerce in Masonic Temple next Thursday night and it is expected that the big hall will be taxed to capacity. The service committee, who will prepare and serve the dinner under the direction of Emmet McDaniel, W. C. Kuster and J. R. Walters, are making a special request that those who desire to attend should not delay sending in their reservations. They must have ample time to purchase their supplies and know how many people to care for.

Every day shows that the work of commercial organizations along the new lines caused by the war grows more imperative. The great shortage of labor in factories and on the farms has to be met and during the coming summer the local Chamber will devote its best efforts towards this end. A letter was received this morning from Fred C. Croxton, head of the labor division of the Ohio branch council national defense, stating that his talk at the dinner will be along practical lines and of the deepest interest to employers of labor in all capacities. Mr. Croxton is one of the best informed men in Ohio on this subject. John F. Lent, president of the Pittsburgh Commercial Club, will also bring out points on this subject by his talk, "The Needs of a City." Fellowship songs led by the Chamber of Commerce quartette will be a feature. Tickets can be had at the New King Company's Store, Chandler's dye works and chamber headquarters.

CELERY KING DEAD.

Tiffin, April 28.—Thomas H. Knapp, aged 48, widely known as the "Celery King," died here yesterday. He was one of the largest celery growers in Ohio.

Camels were early known to the Egyptians, though no representative of this animal has yet been discovered in the hieroglyphics.

Willard SERVICE STATION

(Copyright registered, 1917)

You get out what you put in—but what comes out does more work than you do putting it in.
—Little Ampere

Liquid Lightning

Let Little Ampere take care of your battery, and you'll always be able to get out of it the liquid lightning that gives bright lights, snappy starting, and perfect ignition.

You can't take it out if you don't put something back. You must keep it filled with water and in a fully charged condition. And if you let us test it regularly, you will be sure that it's always full of liquid lightning that has put the crank out of commission.

Come in for your Willard Service Card. We have a rental battery for your use when you need repairs.
